CONTENTS

Volume 22, Issue Nos 1–10

RIVER RESEARCH AND APPLICATIONS

Issue No. 1, JANUARY

Plant Dispersal along Rivers Fragmented by Dams: David M. Merritt and Ellen E. Wohl 1

Expanding the Analytical Potential of Channel Locational Probability Maps Using Cellular Statistics: Dennis M. Staley and Thad A. Wasklewicz 27

Patterns in Groundwater Nitrogen Concentration in the Riparian Zone of a Large Semi-arid River (River Murray, Australia): Sébastien Lamontagne, Fred W. Leaney and Andrew L. Herczeg 39

Spatial Effects of Reservoirs on Fish Assemblages in Great Plains Streams in Kansas, USA: Jeffrey A. Falke and Keith B. Gido 55

Causes of Mortality of Atlantic Salmon (*Salmo salar*) and Brown Trout (*Salmo trutta*) Smolts in a Restored River and its Estuary: Anders Koed, Henrik Baktoft and Brian Daniel Bak 69

Applying Spatial Hydraulic Principles to Quantify Stream Habitat: David W. Crowder and Panayiotis Diplas 79

Instream Flows for Recreation are Closely Correlated with Mean Discharge for Rivers of Western North America: Stewart B. Rood, Chris George, Bobbi George and Wilco Tymensen 91

Short Communication

Modelling Suppression of Cyanobacterial Blooms by Flow Management in a Lowland River: Simon M. Mitrovic, Bruce C. Chessman, Lee C. Bowling and Richard H. Cooke 109

Issue No. 2, FEBRUARY

Special Issue: Variability in Riverine Environments
Guest Editor: Martin C. Thoms

Variability In Riverine Ecosystems: Martin C. Thoms 115

The Riverine Ecosystem Synthesis: Biocomplexity in River Networks Across Space and Time: James H. Thorp, Martin C. Thoms and Michael D. Delong 123

Placing Global Stream Flow Variability in Geographic and Geomorphic Contexts: N. L. Poff, Julian D. Olden, David M. Pepin and Brian P. Bledsoe 149

Trend, Variability or Extreme Event? The Importance of Long-term Perspectives in River Ecology: Michael A. Reid and Ralph W. Ogden 167

Flow Variability in Dryland Rivers: Boom, Bust and the Bits In Between: Stuart E. Bunn, Martin C. Thoms, Stephen K. Hamilton and Samantha J. Capon 179

The Biotic and Abiotic Legacy of a Large Infrequent Flood Disturbance in the Sabie River, South Africa: Melissa Parsons, Craig A. McLoughlin, Mark W. Rountree and Kevin H. Rogers 187

Variability in Channel Form in a Free-flowing Dryland River: Patricia J. Beyer 203

Relationships Between Flow Variability and Macroinvertebrate Assemblage Composition: Data from Four Australian Dryland Rivers: Fran Sheldon and Martin C. Thoms 219

Hydro-climatic and Land Use Changes in the River Lune Catchment, North West England, Implications for Catchment Management: H. G. Orr and P. A. Carling 239

Managing River Flows for Hydraulic Diversity: an Example of an Upland Regulated Gravel-bed River: Fiona J. Dyer and Martin C. Thoms 257

The Real River Management Challenge: Integrating Scientists, Stakeholders and Service Agencies: Kevin H. Rogers 269

Issue No. 3, MARCH

Vegetation Development and Restoration Potential of Drained Reservoirs following Dam Removal in Wisconsin: Cailin H. Orr and Emily H. Stanley 281

A Collaborative and Adaptive Process for Developing Environmental Flow Recommendations: Brian D. Richter, Andrew T. Warner, Judy L. Meyer and Kim Lutz 297

Nitrogen Processing by Biofilms along a Lowland River Continuum: D. S. Baldwin, A. M. Mitchell, G. N. Rees, G. O. Watson and J. L. Williams 319

Environmental Conditions and Timing for the Spawning of Murray Cod (*Maccullochella peelii peelii*) and the Endangered Trout Cod (*M. Macquariensis*) in Southeastern Australian Rivers: John D. Koehn and D. J. Harrington 327

Changes in Pool Size in Response to a Reduction in Discharge: a Flume Experiment: Douglas M. Thompson 343

A Geomorphic Monitoring and Adaptive Assessment Framework to Assess the Effect of Lowland Floodplain River Restoration on Channel–Floodplain Sediment Continuity: J. L. Florsheim, J. F. Mount and C. R. Constantine 353

Arena

Fish Environmental Guilds as a Tool for Assessment of Ecological Condition of Rivers: R. L. Welcomme, K. O. Winemiller and I. G. Cowx 377

Issue No. 4, MAY

Ecological Consequences of Hydropower Development in Central America: Impacts of Small Dams and Water Diversion on Neotropical Stream Fish Assemblages: Elizabeth P. Anderson, Mary C. Freeman and Catherine M. Pringle 397

Spatial Patterns of Fish Communities in the Upper Mississippi River System: Assessing Fragmentation by Low-head Dams: John H. Chick, Mark A. Pegg and Todd M. Koel 413

The Behaviour of Pacific Salmonid Smolts during Passage over Two Experimental Weirs under Light and Dark Conditions: Paul S. Kemp, Michael H. Gessel, Benjamin P. Sandford and John G. Williams . . 429

Silica Retention in the Iron Gate I Reservoir on the Danube River: the Role of Side Bays as Nutrient Sinks: Daniel F. McGinnis, Serghei Bocaniov, Cristian Teodoru, Gabriela Friedl, Andreas Lorke and Alfred Wüest 441

Channel Dynamics and Geomorphic Variability as Controls on Gravel Bar Vegetation; River Tummel, Scotland: David Gilvear and Nigel Willby 457

Restoration and Colonization of Freshwater Mussels and Fish in a Southeastern United States Tailwater: James B. Layzer and Edwin M. Scott, Jr.. 475

Short Communication

Thermal Variability and Stream Flow Permanency in an Alpine River System: Lee E. Brown, David M. Hannah and Alexander M. Milner 493

Issue No. 5, JUNE

A Review of Statistical Methods for the Evaluation of Aquatic Habitat Suitability for Instream Flow Assesssment: Behrouz Ahmadi-Nedushan, André St-Hilaire, Michel Bérubé, Élaine Robichaud, Nathalie Thiémonge and Bernard Bobée 503

Creating a Disturbance: Manipulating Slackwaters in a Lowland River: Paul Humphries, Robert A. Cook, Adam J. Richardson and Luciano G. Serafini 525

Applicability of the Flood-Pulse Concept in a Temperate Floodplain River Ecosystem: Thermal and Temporal Components: Harold L. Schramm, Jr. and Michael A. Eggleton 543

Flow Regulation by Dams Affecting Ichthyoplankton: the Case of the Porto Primavera Dam, Paraná River, Brazil: Paulo V. Sanches, Keshiyu Nakatani, Andréa Bialetzki, Gilmar Baumgartner, Luiz C. Gomes and Elaine Antoniassi Luiz 555

A Review of Regulation Mechanisms of Metazoan Plankton in Riverine Ecosystems: Aquatic Habitat versus Biota: Nicole Lair 567

Flow Variability and Macroinvertebrate Community Response within Riverine Systems: Wendy A. Monk, Paul J. Wood, David M. Hanr.ah, Douglas A. Wilson, Chris A. Extence and Richard P. Chadd . . . 595

Issue No. 6, JULY

Physiographic Characteristics of Bridge-stream Intersections: Peggy A. Johnson 617

Determination of Bank Erodibility for Natural and Anthropogenic Bank Materials using a Model of Lateral Migration and Observed Erosion along the Willamette River, Oregon, USA: Jennifer Rose Wallick, Stephen T. Lancaster and John P. Bolte 631

Nitrogen Dynamics in Sediment during Water Level Manipulation on the Upper Mississippi River: Jennifer C. Cavanaugh, William B. Richardson, Eric A. Strauss and Lynn A. Bartsch 651

Reach-scale Interactions between Aquatic Plants and Physical Habitat: River Frome, Dorset: A. M. Gurnell, M. P. van Oosterhout, B. de Vlieger and J. M. Goodson. 667

Responses of Macroinvertebrate Communities to River Restoration in a Channelized Segment of the Shibetsu River, Northern Japan: Daisuke Nakano and Futoshi Nakamura 681

A New Method to Determine Interstitial Flow Patterns in Flume Studies of Sub-aqueous Gravel Bedforms such as Fish Nests: P. A. Carling, L. Whitcombe, I. A. Benson, B. G. Hankin and A. M. Radecki-Pawlik . . 691

Influences of Environmental Conditions on Macrophyte Communities in Drought-affected Headwater Streams: C. G. Westwood, R. M. Teeuw, P. M. Wade, N. T. H. Holmes and P. Guyard 703

Issue No. 7, SEPTEMBER

Fish Assemblages and Stream Hydraulics: Consistent Relations across Spatial Scales and Regions: N. Lamouroux and F. Cattanéo. 727

Ecology of an Estuarine Mysid Shrimp in the Columbia River (USA): Craig A. Haskell and Jack A. Stanford 739

Inter-habitat Variation in the Benthos of the Upper Missouri River (North Dakota, USA): Implications for Great River Bioassessment: Ted R. Angradi, E. William Schweiger and David W. Bolgrien 755

Development of a Standardized Large River Bioassessment Protocol (LR-BP) for Macroinvertebrate Assemblages: Joseph E. Flotemersch, Karen Blocksom, John J. Hutchens Jr. and Bradley C. Autrey 775

Effects of Flooding Regime upon the Decomposition of *Eichhornia azurea* (Sw.) Kunth Measured on a Tropical, Flow-regulated Floodplain (Paraná River, Brazil): André Andrian Padial and Sidinei Magela Thomaz 791

Large Wood Addition for Aquatic Habitat Rehabilitation in an Incised, Sand-bed Stream, Little Topashaw Creek, Mississippi: F. Douglas Shields Jr., Scott S. Knight and John M. Stofleth 803

Response of the Benthic Macroinvertebrate Community in a Northern Michigan Stream to Reduced Summer Streamflows: Todd C. Wills, Edward A. Baker, Andrew J. Nuhfer and Troy G. Zorn . . . 819

Issue No. 8, OCTOBER

Modelling the Effects of Dam Removal on Migratory Walleye (*Sander vitreus*) Early Life-history Stages: Fang Cheng, Ulrike Zika, Keith Banachowski, Daniel Gillenwater and Tim Granata 837

Effect of Sampling Density on the Measurement of Stream Condition Indicators in Two Lowland Australian Streams: Anthony R. Ladson, Rodger B. Grayson, Boris Jawecki and Lindsay J. White 853

Use of Otolith Chemical Signatures to Estimate Carp Recruitment Sources in the Mid-Murray River, Australia: David A. Crook and Bronwyn M. Gillanders 871

Impact of Dams on Point Bar Habitat: A Case for the Extirpation of the Sacramento Valley Tiger Beetle, *C. hirticollis abrupta:* Michael S. Fenster and C. Barry Knisley 881

Effectiveness of Braided, Gravel-bed River Restoration in the Upper Waitaki Basin, New Zealand: Brian S. Caruso 905

Fish Assemblages and Biotic Integrity of a Highly Modified Floodplain River, the Upper Mississippi, and a Large, Relatively Unimpacted Tributary, the Lower Wisconsin: Brian M. Weigel, John Lyons and Paul W. Rasmussen 923

Effects of Fluctuating River Flow on Ground Water/Surface Water Mixing in the Hyporheic Zone of a Regulated, Large Cobble Bed River: Evan V. Arntzen, David R. Geist and P. Evan Dresel 937

Issue No. 9, NOVEMBER

Long-Term Faunal Changes in a Regulated and an Unregulated Stream—Cow Green Thirty Years On: Patrick D. Armitage 947

Rehabilitation of Bedrock Stream Channels: The Effects of Boulder Weir Placement on Aquatic Habitat and Biota: Phil Roni, Todd Bennett, Sarah Morley, George R. Pess, Karrie Hanson, Dan Van Slyke and Pat Olmstead 967

Deoxygenation Potential of the Richmond River Estuary Floodplain, Northern NSW, Australia: Bradley D. Eyre, Geoffrey Kerr and Leigh A. Sullivan 981

The Influence of Hydroelectric Power Generation on the Body Composition of Juvenile Atlantic Salmon: Ole K. Berg, Jo V. Arnekleiv and Anne Lohrmann 993

Simulation of Runoff and Phosphorus Transport in a Carpathian Catchment, Slovakia: Y. B. Liu, J. Corluy, A. Bahremand, F. De Smedt, J. Poorova and L. Velcická. 1009

Potential Ecological Effects of Water Extraction in Small, Unregulated Streams: S. F. McKay and A. J. King 1023

Regional Differences in Nutrient Limitation in Floodplains of Selected European Rivers: Implications for Rehabilitation of Characteristic Floodplain Vegetation: A. M. Antheunisse, Roos Loeb, Leon P. M. Lamers and Jos T. A. Verhoeven 1039

Issue No. 10, DECEMBER

Simulated Recruitment of Riparian Trees and Shrubs under Natural and Regulated Flow Regimes on the Wisconsin River, USA: Mark D. Dixon and Monica G. Turner 1057

Evaluation of Energy Expenditure in Adult Spring Chinook Salmon Migrating Upstream in the Columbia River Basin: an Assessment Based on Sequential Proximate Analysis: Matthew G. Mesa and Cynthia D. Magie 1085

Formation, Distribution and Ecological Consequences of Flood-related Wood Debris Piles in a Bedrock Confined River in Semi-arid South Africa: Neil E. Pettit, Joshua J. Latterell and Robert J. Naiman 1097

Water Quality Changes in Hyporheic Flow Paths Between a Large Gravel Bed River and Off-channel Alcoves in Oregon, USA: Alexander G. Fernald, Dixon H. Landers and Parker J. Wigington, Jr. 1111

A Physical Habitat Model for Predicting the Effects of Flow Fluctuations in Nursery Habitats of the Endangered Colorado Pikeminnow (*Ptychocheilus lucius*): Tamara C. Grand, Steven F. Railsback, John W. Hayse and Kirk E. Lagory 1125

Arena

Recognizing the Importance of Scale in the Ecology and Management of Riverine Fish: Isabelle Durance, Céline Lepichon and S. J. Ormerod 1143
